SPECIFICATIONS

Our U-Line are premium standalone multi-curve plates.

The plates are Silicon Ceramic from Saint Gobain and aramid backing. This enables a good protection to weight ratio and edge-to-edge ceramics.

The plates are covered in a very thin drop resistant foam and a liquid-repellent Cordura cover, which protects the ballistic properties against water, oil and similar liquids.

The plates have a thickness of just 27mm.

7-year ballistic warranty.
